Delivered government digital services for Serang & Tangerang and led 20+ projects at Brave Teknologi spanning crypto, eSIM, and enterprise platforms. Built AI solutions at Strata52. Proficient in TypeScript, Python, PHP, and Solidity.

SKILLS

Tech Stack: TypeScript, JavaScript, Python, PHP, Solidity, Express, React, Laravel, jQuery, ReactJS
Tools & Platforms: Git, MySQL, Vercel, Linux, CI/CD, Cloud Computing
Languages: English (Intermediate), Bahasa Indonesia (Native)

EXPERIENCE

Project Leader

Brave Teknologi | Mar 2021 - Present

- Led end-to-end delivery of 20+ client projects as both project lead and hands-on developer, achieving 98% client satisfaction across fintech, Web3, and logistics industries
- Built Arbilo, a real-time cross-exchange crypto arbitrage platform with opportunity scanning and portfolio tracking, using JavaScript, Electron, and React
- Developed multiple web applications including Emi (eSIM Telegram store), Diana Offset (catalog and landing page with Laravel/PHP), and various client-facing platforms

Fullstack AI Engineer

Strata52 (s52.ai) - USA (Remote) | Sep 2025 - Nov 2025

- Developed a daily proof-of-work application for construction workers, enabling field teams to log, verify, and track daily tasks through a streamlined web interface
- Built a smart monitoring dashboard powered by AI technology, providing real-time insights and analytics to help leaders make data-driven decisions

Web Developer (Contract)

Regional Court (Gov) - Serang & Tangerang, Indonesia | Aug 2020 - Jan 2021

- Integrated a letter submission mobile application for community use using PHP, Laravel, and jQuery
- Enhanced the Court Management System by adding applicant report generation and improving date sorting
- Developed a REST API for generating court submission documents, integrated into an Android application downloaded thousands of times by the community

EDUCATION

Bachelor of Science in Computer Science

Serang Raya University - Banten, Indonesia | Jun 2019 - Dec 2025

CERTIFICATIONS

- Progate Course - Completed foundational certifications in PHP, JavaScript, Git, React, and Python (Nov 2022)
- TOEFL Certificate - Score: 570, issued by Serang Raya University (Mar 2022)
